

2026-2027 (Science) Scheme of Work (GRADE 3)

Month	Teaching days	Course Book / Reader / Booklet (Units, pages)	Homework may include:	Skills focus / Learning objectives:	Project-based Learning(PBL) / STEAM PBL+ Coding / AI in Curriculum (if any)	Formative Assessment e.g. quiz	UNESCO 17 SD Goals (1-17) (if any)	6 Deep Learning Goals (1-6) (M.Fullan's 6Cs) (if any)
Term 1 (1/9 – 24/1)								
September (Half-day 1-9/9)	18 (Half-day 1-9/9) (G1-G5 Normal time-table starts from 4/9)	Introduction Ch.1 - Life processes	Activity Booklet Unit 1 Ch.1 - Life processes	1. Identifying living & non-living things using 7 life processes: movement, growth, nutrition, reproduction, sensitivity, excretion and breathing.	STEM Curriculum (SEPT – NOV) 2 Coding lessons 2 AI lessons	Science Demonstration Video (14/9-9/10)	7-9	4-6
		Ch.7.1 - Classification of Animals	Activity Booklet Unit 1 Ch.7 - Sorting animals	1. Scientists classify animals into groups and each group shares common features. 2. The six main groups are mammals, fish, insects, amphibians, reptiles, birds. 3. Classify animals into different groups based on their features: a. Mammals: warm-blooded, give birth to live young, feed their young with their own milk, have fur or hair, breathe with lungs b. Fish: cold-blooded, lay eggs in water, have scales & fins, breathe with gills. c. Birds: warm-blooded, have feathers, a beak, two legs and two wings, lay eggs on land, breathe with lungs d. Reptiles: cold-blooded, lay eggs on land, have scales, breathe with lungs			3,15	4-6
		Ch.7.2 - Similarities and Differences of Animal						

October Make-up Monday timetable for G1-6 Lesson 1-6 (20/10)	19			e. Amphibians: cold-blooded, lay eggs in water, breathe with lungs and gills, have moist and smooth skin f. Insects: cold-blooded, lay eggs, have a hard outer shell, six legs & two antennae	STEM Curriculum (SEPT – NOV) 2 Coding lessons 2 AI lessons	Science Demonstration Video (14/9-9/10)		
		Ch.8 - Life cycles	Activity Booklet Unit 1 Ch.8 - Life cycles	1. Humans and other animal grow and change. 2. Some animals look very different compared to their younger form.			9	4-6
		Ch.9 - Food chains	Activity Booklet Unit 1 Ch.9 - Food chains Unit 1 Review & Practice	1. Food chain show the feeding relationship in a habitat. 2. All food chains start with a producer which make their own food. 3. Animals are consumer because they eat other animals and plants.		Science In Action Project - AI picture generation (5/10-23/10)	9	4-6
		Ch.2.1 - Parts and functions of plants	Activity Booklet Unit 2 Ch.2.1 - Parts and functions of plants	1. Plants have several important parts: roots, stem, leaf, petal and flower. 2. Plants need water, minerals from the soil, carbon dioxide from the air and sunlight to make food. 3. By conducting a fair test, students will evaluate how the absence of water, sunlight and warmth affects plant growth.			3,15	6
		Ch.2.2 - Bees need flowering plants	Activity Booklet Unit 2 Ch.2.2 - Bees need flowering plants Unit 2 Review & Practice	1. Bees transfer pollen between flowers to produce seeds.			3,15	6

January Make-up Friday timetable for G1-6 Lesson 1-9 (27/1)	10	Revision Week						
		Assessment Week (Half Day School) (G1-G6) (6-15/1) 1st Term Summative Assessment (G2-G5) (7-12/1)						
		Review G2-G5 SA1 papers (13-19/1)						

Term 2 (25/1 – 14/7)	Teaching days	Course Book / Reader / Booklet (Units, pages)	Homework may include:	Skills focus / Learning objectives:	Project-based Learning(PBL) / STEAM PBL+ Coding / AI in Curriculum (if any)	Formative Assessment e.g. quiz	UNESCO 17 SD Goals (1-17) (if any)	6 Deep Learning Goals (1-6) (M.Fullan’s 6Cs) (if any)
January Make-up Friday timetable for G1-6 Lesson 1-9 (27/1)	5	Ch.3 - Forces and Friction	Activity Booklet Unit 4 Ch.3 - Forces and Friction	1. Friction occurs when objects are in contact with one another. 2. Friction acts in the opposite direction to movement. 3. Friction is an invisible force that slows things down.	STEM Curriculum (JAN – MAY) 4 Coding lessons	Science Demonstration	3,13	5,6
		Ch.12.1 - Gravity	Activity Booklet Unit 4 Ch.12.1 - Gravity	1. Gravity is a force that pulls everything down towards the centre of the Earth. 2. A force meter measures the strength of forces in Newtons (N).		Video (25/1-5/3)	3,13	4-6
February	8	Lunar New Year Holidays (3/2 – 16/2)						
		Ch.11 - Light and Shadows	Activity Booklet Unit 4 Ch.11 - Light and Shadows	1. A transparent object lets all light through. 2. A translucent object lets some light through. 3. An opaque object lets no light through. 4. A shadow is a dark area formed when the path of light is blocked by an object.	STEM Curriculum (JAN – MAY) 4 Coding lessons	Science Demonstration Video (25/1-5/3)	12-15	4-6
March	10	Ch.4.1 - Magnetic Investigation	Activity Booklet Unit 4 Ch.4.1 - Magnetic Investigation	1. The two poles of a magnet are called the North Pole and the South Pole. 2. Opposite poles attract, while like poles repel. 3. Only some materials are magnetic. 4. Materials that are not attracted to a magnet are called non-magnetic objects.				12-15

April	16	Ch.4.2 - The Compass	Activity Booklet Unit 4 Ch.4.2 - The Compass Unit 4 Review & Practice	1. Understand how the compass work.			12-15	4-6
		Excursion week (16-20/3)						
		Easter Holiday (22/3 – 2/4) Ching Ming Festival (5/4)						
		Ch.5 - Solids, Liquids and Gases	Activity Booklet Unit 5 Ch.5 - Solids, Liquids and Gases	1. Identify different properties of solids, liquids and gases: a. Solids keep their shape and have a definite volume. b. Liquids can flow easily, take the shape of their container, and are difficult to compress. c. Gases are often hard to see, flow freely, have no definite shape, occupy all available space, and can be compressed easily.	STEM Curriculum (JAN – MAY) 4 Coding lessons	Science In Action Project (8/3-16/4)	9	4-6
		Ch.12.2 - Materials from Earth	Activity Booklet Unit 5 Ch.12.2 - Materials from Earth	1. All materials we use originate from the Earth. 2. Coal, oil, and natural gas are derived from decomposed animals and plants.			9,12-15	4-6
		Ch.6.1 - Mixtures	Activity Booklet Unit 5 Ch.6.1 - Mixtures	1. A mixture is made of two or more materials that are mixed. 2. Solids that can dissolve in liquids are called soluble solids while solids that cannot dissolve in liquids are called insoluble solids. 3. A solid that can dissolve in a liquid to form a solid/liquid mixture is called a solute. The liquid that the solid dissolves in is called a solvent.			9	4-6

			Activity Booklet Unit 5	1. Methods of separating mixtures include sieving, filtering and magnetism:				
May Make-up Thursday timetable for G1-6 Lesson 1-6 (11/5)	16	Ch.6.2 - Separating Methods	Ch.6.2 - Separating Methods Unit 5 Review & Practice	a. Sieving: used to separate solids of different sizes b. Filtering: separates solids from liquids c. Magnetism: used to separate mixtures containing magnetic objects			9	4-6
		Revision Week				Unit Practice		
		Assessment Week (Half Day School) (G1-G5) (25/5 – 4/6)						
		2nd Term Summative Assessment (G1-G5) (27/5 – 1/6)						
June	8	Review of G1-G5 SA2 papers (2-8/6)						
		Full-day school (7,8 -10-11/6)						
		Discovering Science - Enquiry-based research activities						
		Post-exam activities (Half Day) (14/6-14/7)						
		Bridging Course - Fair Test	Bridging Booklet	Introduction to fair tests with an experiment involving baking soda and five different drinks.				
July		Post-exam activities (Half Day) (14/6-14/7)						
		Summer Holiday (15/7 – 1/9)
